

Original ATE drum brakes shoes & TopKits

The quality of the Original ATE drum brake shoes!

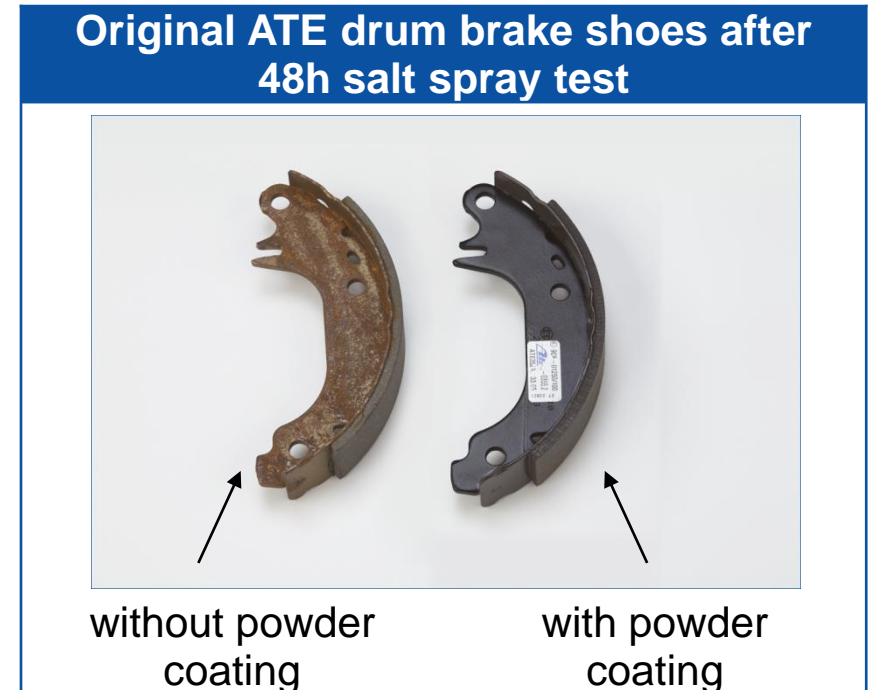

The advantages in a nutshell

- ▶ ECE-R90 homologized
- ▶ Owing to painting, ATE even exceeds OE and OES requirements.
- ▶ Radius-ground: optimum performance is achieved on the very first brake applications.
- ▶ The entire surface is bonded to ensure higher resistance to liner detachment.
- ▶ The seams of bonds are sealed! Minimizes corrosive infiltration.
- ▶ Improved corrosion prevention due to powder painting

The quality of the Original ATE drum brake shoes!

- ▶ The drum brake shoes in the TopKits are supplied almost exclusively in powder-coated form.

- ▶ ECE-R90 homologized
- ▶ Owing to powder painting, with these enhanced products ATE not only meets the requirements of the vehicle manufacturers, but even surpasses them where the drum brake is concerned.

Original ATE drum brake shoes

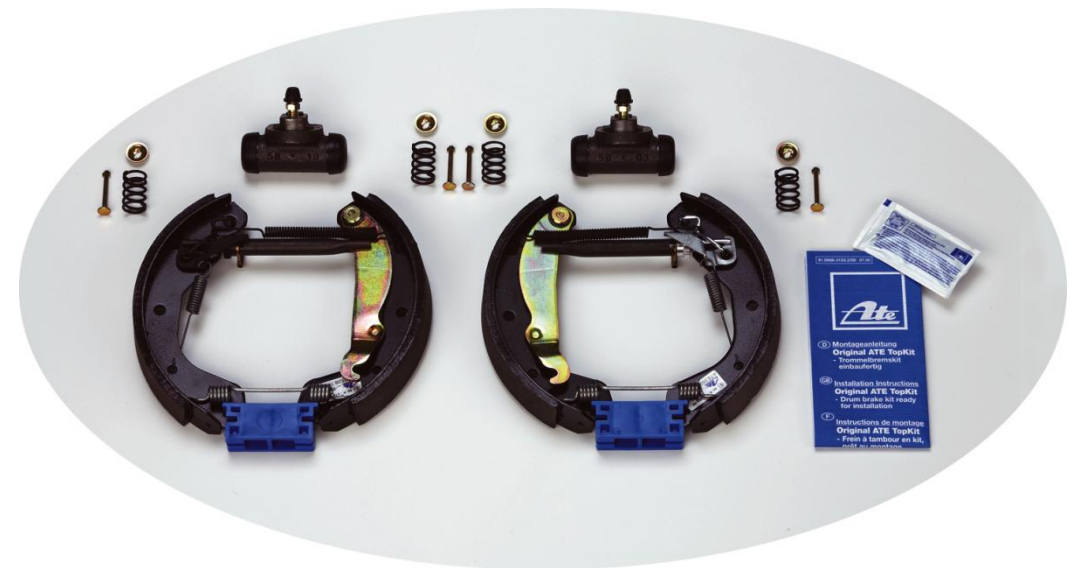

- ▶ Our **Original ATE drum brake shoes** are available both in sets,
- ▶ as well as in our **new OE-quality brake shoe kit** (together with the drum or parking brake shoes we now deliver the installation kit if specified by OES),
- ▶ and in our convenient complete set, the **Original ATE TopKit**.

Contents of Original ATE TopKit
